**CSA,
BRINGING EATERS
AND LOCAL FARMERS
TOGETHER**

COMMUNITY SUPPORTED AGRICULTURE

WHAT IS IT?

- Community Supported Agriculture (CSA) is a subscription model where participants receive goods (like produce, eggs, meat, flowers) directly from local farms.

HOW DOES IT WORK?

- Participants sign up in advance to receive a share of the harvest for a specific number of weeks. Members choose a convenient pickup location and enjoy a consistent supply of farm-fresh foods.

WHAT ARE THE BENEFITS?

- Access local, seasonal foods with high-quality freshness & taste.
- Learn how your food is produced and connect to nearby farmers.
- Increase motivation to cook at home with fresh ingredients.
- Find a simple way to support the local food system.
